

Can you name it?

We are researchers at the Intelligent Interactive Systems Group at the University of Cambridge and the Mixed Reality Lab at Coburg University. We would like to gather data on whether users are able to name certain objects and materials for a virtual reality user study.

Please attempt to complete the questionnaire to the best of your knowledge. It is completely fine if you do not know the answer to some of the questions below, and if that is the case, please select the "I don't know" option.

Participants will receive Amazon vouchers after completing our subsequent user studies. To register your interest, please complete this survey and share your contact details at the end. We value your privacy and all personal data will be stored securely and only used for communication purposes.
